Cotton Shirts For Easy Living Take on Bold Look

What changes are in the wind in sports shirts?

News is being made as the males of the species exchange their conservative pull-overs for bright stripes and fancy necks, reports Everett Mattlin, editor of Gentleman's Quarterly, the fashion magazine for men.

Yes, indeed, this is the time for bold fun shirts! Men and boys have lots of fancy shirts to choose from this spring. Hot orange, gold, green, carnation pink, air-force blue, all in vivid hues, make news in lustrous highly polished cotton fabrics more acceptable to the new bright dyes. It is a method of polishing the cotton yarn so that colors appear more shiny, more lustrous, brighter. Many sport shirts manufacturers carry the Durene label to show consumers the yarn of their shirts has been mercerized.

The new hot colors show up in multi-color stripes, vertical stripes, horizontal stripes, boater stripes, ticking stripes and candy stripes. Stripes patterns go handsomely with the paisley and batik prints that are prominent in lightweight sport coats this season.

Polished cotton shirts too, are a smart contrast to the cool soft shades of new season sport coats. Pullovers sport shirts, the kind most popular, feature deep front plackets with three or four buttons. On some shirts the placket practically reaches the belt line of the slacks.

Also newsworthy are high-V necks, boatnecks, crossover necks—fancy colorful designs give sport shirts a sportier more American connotation—away from trim, conservative styling. Sletves, have lots of fashion interest pointing up a less conventional three-quarter sleeve. Knit shirt stylists have embellished sleeves with vents, slits and two buttoncuff treatments.

Pockets are oversized and noted for detailing. They appear at the bottom of the shirt and on the sleeve as well as in conventional places... details that point up the smart race styles of the bold Sixties.

CULOTTE FEVER—Even the young fry have it. Joseph Love styles this Miss's silver suit in Sanforized cotton twill and adds bold pearl buttons for panel detail. Suit is washable, of course, going into the family wash

each week—so it will always be crisp and fresh for Sunday School. Where it may be obtained may be learned by calling the Press Women's Editor, DA 5-1515.

Gay Belts Encircle Fashionable Waists With Easy Grace

Smart leather belts circle most tailored waists this spring with neat, colorful "claps." Although fewer contour belts are in evidence than last year, widths vary all the way from spaghetti hoops of suede leather to five to six-inch bands of supple, smooth and slightly grained leathers.

Narrower belts are being worn with fuller skirted dress in daytime and late-day ensembles.

In mood and color, new

belts are matched to handbags and shoes. Chalked colors and pale pastels at the waist carry through the softer leather look of accessories from hand to toe.

EXHAUST FUMES

Exhaust fumes from a parked car, according to the Allstate Safety Crusade, represent a signal for you to slow down and be alert. The car's driver might pull out suddenly or blindly.

ADJUSTING VISION

It takes at least 20 minutes for a driver's eyes to adapt to darkness but their adaption can be shattered in a second by sudden bright lights, the Harvard School of Public Health reports. Experiments also showed that the degree of difficulty in adjusting vision to darkness increased with age.

Guess WHAT

-I don't wear glasses now!

Contact lenses have come a long way since they were first introduced to the human eye.

Now—so comfortable, so undetectable—contact lenses are for just about anybody: the self-conscious teen-ager, hating to admit she needs glasses... the society miss who feels that conventional glasses subtract from her youthful charm... the man or woman afflicted with forgetfulness who too often leaves their regular glasses at home. Whatever your reason for being interested, come in and see what Science has done about contact lenses to make them wonderful to wear.

PAPER DOLL SAFARI—Bold stripes, dramatically handled fashion a first cotton of the season dress. Sleeveless and with just a minimum of collar, this Cinderella dress centers its design interest in the triple tier of stripes that forms its bodice belt. It is styled in

Sanforized broadcloth so you can be sure it will keep its same trim fit without shrinkage through a whole season of washings. For further information call the Women's Editor at DA 5-1515.

SUDDEN CRISES

Too many drivers traveling at fast speeds leave only one-quarter of a second spacing between their car and the one ahead, the Michigan State University Highway Traffic Safety Center discloses. But a driver needs three seconds to respond to a sudden crisis in daylight and even longer in darkness.

TRAFFIC ACCIDENTS

"Don't ever think that reducing traffic accidents is out of our hands as individuals," says E. R. Klamm, accident prevention director of Allstate Insurance Companies. "Everyone who drives has in his own two hands, his mind and his heart, the capacity to recognize and avoid accident situations."
